Conspiracy against King George's life

Firing by outposts on neutral zone

Colonel Manos hooted

Erythrea not to be abandoned

Paris 22nd—The Government was questioned to-day in the Deputies about the Eastern question. Mr. Hanotaux, Foreign Affairs Minister, said that the Sultan had reduced his claims on Greece, at the request of the Powers. The Chamber was satisfied with this statement.

Marseilles, 22nd — The Moorish Ambassador arrived here to-day and will leave for Paris to-morrow.

Madrid, 22nd—The Minister of Foreign Affairs, the Duke of Tetuan, has consented to withdraw his resignation. The Law students made a manifestation to-day against Senatos Comas in reference to his question with the Duke of Tetuan.

The firing at the Tiro Nacional Tournament was kept up all day yesterday. Over 15,000 cartridges were sold up to 4 p.m., which shows pretty lively shooting. The popular "viejo" General Luis Maria Campos, said he was delighted with the shooting, which would have been better but for the cold and wind.

Rome, 22nd—According to latest telegrams from Athens the number of Italians who took part in the battle of Domokos was 300. It is possible that the majority of them may have been taken prisoners, although General Edhem Pashas telegrams to Constantinople contain no reference to them. The number of Italians killed and wounded in that battle was 25 and 60 respectively. The bravery of these Italians is loudly praised in Athens. Guisseppe Garibaldi, son of General Ricciotti, was dangerously wounded. King George sent one of his aide-de-camps to enquire as to the patient's condition.

Athens 22nd—Part of the Greek army which invaded the Epirus and afterwards returned to Greece, left Arta this morning for this city.

Madrid, 22nd—Several members of the Senate propose interpellating Government with reference to Spain's policy and the questions in which the Washington Foreign Office has interfered. On account of the Duke of Tetuan's violent conduct towards Sr. Comas, the Liberal Senator, the Duke of Tetuan's seconds and those of Senator Comas met last night, but could not decide who provoked the incident which occurred between the two yesterday. They therefore decided that there was no reason for a duel, as both gentlemen had attacked each other at the same time. Several witnesses maintain that the Duke of Tetuan was the first to strike. His Grace will withdraw his resignation.

Vienna, 22nd—Government has received telegrams from Athens which give rise to serious fears with regard to King George's life. The excitement which prevails against His Majesty and the Royal Family is manifested by a conspiracy, and it is feared in Court circles that an attempt may be made against the king's life. The Austrian Government has ordered one of its men-of-war in Cretan waters to leave for Falero to protect the Royal family.

Oran, 22nd—Disturbances continue in this city. The police have arrested 19 rioters, amongst them a Jew who fired a shot with a rifle, killing one of the manifestants. The native population continues in a very excited frame of mind towards the Israelites, and serious events are feared in spite of the vigilance of the police and troops.

New York, 22nd—The *New York Herald* censures the policy of the Senate in the Cuban question and qualifies the voting of the recognition of the Cuban rebels as belligerents as a "Jingo Drama."

Athens, 22nd—Ricciotti Garibaldi was also wounded in the arm during the retreat of the Greeks from Domokos. The wound does not appear to be dangerous. The Press continues loud in its praises of the bravery of the Garibaldi Legion.

Agram, 22nd—During the elections here riots occurred and the troops had to fire on the mob killing and wounding, several persons.

Rome. 22nd—The Chamber decided today, by 229 to 140 votes that Erythrea should not be abandoned.

Athens. 22nd—Last night, owing to some mistake, the Turkish outposts fired on the Greek lines; but the firing quickly ceased.

THIS MORNING'S TELEGRAMS.

(Received after Midnight.)

Madrid, 22nd—The budget just presented shows a surplus or 10 million pesetas, due to the new petroleum monopoly and the increase of several taxes.

Athens, 22nd—Col. Manos, who returned here to-day from Epirus, was hooted at several stations along the line, and ran a great risk of being actually assaulted.

The official Press accuses the Turks of throwing up fortifications on ground within the neutral zone.

Rome, 22nd—A vote of confidence in the Rudini Cabinet by 343 to 94 votes was passed to-night in the Chamber of Deputies.

Athens, 22nd—The neutral zone between the two armies, recently defined, measures in breadth only 800 metres—a distance considered here to be inadequate since the slightest imprudence by either force might lead to a renewal of hostilities.

ARGENTINE FOREIGN TRADE.

At a moment when bankers and capitalists are proceeding with the greatest caution, in view of the critical state of this market; when merchants and tradesmen complain of the great stagnation in business, and the protest of "pagarés" and the granting of "Moratoriums" are the order of the day, nothing could be more timely than the publication of the official figures of the foreign trade of the Republic for the first quarter of the year. These figures lie before us on our editorial desk, and their study and careful analysis cause a feeling of surprise, to say the least, in which the market will share. On the first of January we wrote that 1897 would be a critical year, and every day that passes confirms the pessimistic prognostication; none can deny that we are in the midst of a sharp commercial crisis which stretches from Rosario to Buenos Aires; exchange is low, distrust is rampant, and failures fill the columns of the press. This is but a logical sequel to the loss of crops at the end of 1896 through locust invasions and inclement weather.

It is, therefore, simply astounding to read in the official statistical bulletin that both the imports and exports of the country for the first quarter of the year compare favorably with the prosperous first quarter of 1896, viz:—

First Quarter	Imports	Exports
	$ gold	$ gold
1892.....	18,850,000	34,470,000
1893.....	24,970,000	39,110,000
1894.....	29,929,000	33,454,000
1895.....	23,900,000	33,876,000
1896.....	27,765,000	38,700,000
1897.....	29,050,000	40,700,000

The above figures (exclusive of specie and bullion) show an increase of 2 millions in imports, and of an equal amount in exports. This, to say the least, is most unexpected, and, we suppose, must be accepted as another startling proof of the invincible progress of Argentina. But before taking up figures of merchandise we shall briefly state the comparative movement of specie:—

First Quarter	Imports	Exports
	$ gold	$ gold
1892.....	5,700,000	70,000
1893.....	2,440,000	50,000
1894.....	660,000	53,000
1895.....	1,680,000	5,000
1896.....	4,570,000	57,000
1897.....	131,000	149,000

We may add that fair amounts of specie were exported in the last six weeks.

If we begin with an analysis of the chief imports of the quarter, we find that yerba, wine, spirits, and eatables in general show a falling-off, whilst there has been an increase in textiles, clothing wire, iron, and lumber, viz:—

First Quarter

Sugar imports have fallen to nil, we exported, meantime, 15,000 tons of the sweet article, officially valued at no less than 2,238,000$ m/n gold. Classifying imports we find:—

The increase in the first quarter of 1897 is, no doubt, small, but, considering the adverse circumstances of the market, the wonder is that there is not a very considerable decline. The losses in cereals may be put down at £4,000,000 stg., and it is surprising that such a shrinkage has not affected consumption more heavily. But what is still more remarkable is that, in spite of such wholesale losses in grain, the exports of the quarter compare in value most favorably with 1896, viz:—

Exports — First Quarter — Produce	1894	1895	1896	1897
	$ gold	$ gold	$ gold	$ gold.
Live-stock	964,446	2,274,771	2,705,486	1,975,909

	33,452,065	33,875,690	38,700,363	40,460,714

We are quite free to admit the increase in the value of pastoral produce for the season has been most favorable, and prices have kept steady, but that there should be only 1,000,000$ gold falling off in agricultural exports during the quarter, compared with same period of 1896, requires some explanation. First and foremost, sugar exports figure for 2¼ millions gold under the head of agriculture: then allowance must be made for the rise in the price-level of both wheat and maize: the export of flour is also much heavier than last year. Thanks to these facts, we find the shortage in crops made up by higher prices and increased sugar and flour exportation: thus, against all popular belief, the exports of the first quarter of 1897 are 2,000,000$ m/n gold higher than in same period of 1896.

The following figures will interest all exporters of live-stock:—

THE MADERO PORT

INAUGURATION OF NEW DOCKS AND BASIN.

The official inauguration of the North Basin, Dock 4, and the two dry-docks, already described on other occasions in these columns, took place yesterday with perhaps less of the usual eclat bestowed on ceremonies of this nature, for no salutes were fired, nor indeed did any of the war-vessels take part—a circumstance that affords another proof of Government retrenchment.

In spite of the very short notice given by the President, who only on Friday afternoon fixed the date of the inauguration, Mr. Dobson, C.E. of the great firm of Hawkshaw, Hayter and Dobson, engineers of the Madero Port Works, managed to organize a very creditable programme for the day's outing.

Sharp at 10 a.m. H.E. President Uriburu drove up to the Engineers' Office, where Mr. Dobson, accompanied by Mr. Simpson, Mr. Rankin, Mr. Lange and others of the staff, awaited his guests. The Ministers did not shine by their punctuality. General Levalle, the new Minister of War, soon put in an appearance. The General looks younger and more jovial than ever. Towards 10.30 all the guests had arrived, and the President and his Cabinet passed over the deck of the corvette Argentina to the advice-boat Gaviota, while the crew presented arms. On board H.M.S. Acorn, lying close by, a company of marines were drawn up to do honour to H.E.—a mark of attention that greatly pleased the President.

The Gaviota, as well as the Burslem, the Luna, the Lafayette and other small steamers designated to take part in the inauguration, was decked out with flags and bunting, thus lending a gay aspect to the Dock, and combining with the glorious weather to awaken ideas of a pleasant day's excursion. The strains of music from a band on board the Gaviota contributed in no small way to strengthen these pleasurable anticipations.

"En fin", a little after 10.30 we started, the Gaviota, flying the Presidential flag and conveying the President's party, taking the lead, the Burslem following with a jovial gathering of engineers and others, and the Luna and Lafayette running for a third place. In this order, we steamed through the Docks, South Basin and Riachuelo Channel. The Gaviota of course kept the lead from start to finish, and there can be no doubt the Burslem would have retained the proud honor of second place, if it had not been for the shallowness of that wretched Riachuelo Channel, in which we unfortunately grounded. The sunken wall and the demolished piles which mark the abandoned condition of the channel attracted the notice of His Excellency, but certainly did not affect his appetite.

Gradually, as we approached the North Channel, other small steamers followed, and soon the procession looked quite imposing. We had almost forgotten to mention that, just before emerging from the South Basin, we met, and in fact, almost collided with, a superbly adorned coal-barge, flying "Admiral" Mudd's flag and making efforts to follow in our wake, with the noble aim of landing the first consignment of coal in the North Basin.

President Uriburu was much struck with the North Channel, and was surprised to learn that it has a minimum depth of 21 feet (against 18 in the South Channel). No doubt, it will keep that depth so long as the Government has nothing to do with the dredging.

Towards midday the Gaviota entered the North Basin, cutting the ribbon which stretched across the opening, and in a few minutes we were all alongside the dry docks. The Burslem was immediately boarded by the overwhelming majority of the Presidential party, in search of sandwiches and cordials, to keep out the cold and replenish the inner man, for, true to official principles of retrenchment, the Government had provided nothing substantial, except for the President and his Ministers, who at once sat down to breakfast, withdrawing from the gaze of the public until 2 p.m.

In the interval the guests and the numerous public who had assembled kept out the cold by walking up and down, admiring the two dry-docks, monumental works which would reflect credit on the most advanced nation. All were eager to see the docks filled, which explained the general impatience with which the conclusion of the presidential repast was awaited. Towards 1.30, the band on board the Gaviota having struck up the enlivening strains of "After the Ball", it was thought that the breakfast was over, but H.E. did not emerge from the mess-room until past 2 p.m. Dr. Uriburu greatly admired the docks and warmly congratulated Mr. Dobson, who explained the leading features of these monumental works, after which the water was let in. This imposing spectacle, already described by us on a previous occasion, roused the enthusiasm of the President and of all the visitors to a high pitch. In about 22 minutes the enormous cavity was filled, 20,000 tons of water having been let in, and the caisson slowly swerved round.

The party now returned through the basin and docks, and after a repast in the Engineers' Office, dispersed, greatly pleased with all they saw, and loud in their praises of the great engineering firm under whose direction these works have been carried out.

AGAINST A HIDE DUTY.

One of the largest meetings ever held in hide and leather circles in New York city, assembled on Saturday April 12th to protest against the duty on hides proposed by the Senate Finance Committee. Representatives were in attendance from practically all the important business houses in the city, and many out of town firms were also represented. Ex-Mayor Schieren of Brooklyn, the head of the largest leather belting firm in the country, was called to the chair and said that the shoe manufacturers are now exporting shoes to South America and other foreign countries and are meeting with great success on account of the fine finish of the goods and the superior workmanship. "Everything that makes up in shoes", said Mr. Schieren, "has been so reduced in price that we can now compete with German and English manufacturers. At the same price the American manufacturer receive the preference. In leather belting, our own line, we have built up a large export trade on account of superior quality of American goods and we are now also able to compete with Germany and England. Should a duty be placed on hides we would lose that business, which would revert back to the old channels. Canada would be especially benefited by placing a duty on hides, as she has now a very large tanning industry and is competing very sharply for our foreign trade for sole leather. A duty on hides would simply give them the entire control of the market.

"It is well known that since hides have been placed on the free list we have been able to build up a large trade, employing over 100,000 people, and the total export last year was over $20,000,000. Many industries would have to stop entirely that are dependent upon the export trade. To exporters of sole leather it would simply mean ruin, and the exports of sole leather amount to nearly $10,000,000. Large tanneries are now erected in Virginia, Tennessee, North Carolina and Georgia, and large districts in that section, now dependent upon the tanning interests, would be great sufferers from the effects of a duty on hides. In former years Pennsylvania was the great tanning State, and is still, but the bark is growing scarce and tanners are moving out of it".

Mr. Isaac N. Bailey of the "Shoe and Leather Reporter" declared the proposed duty a log rolling scheme, and drew attention to the fact that no skins were produced here and there was no excuse for duty on a protection basis. Mr. J. Stevens Ulman of F. Blumenthal and Mr. Henry Burke of Burke Brothers also stated that the proposition to impose a duty on hides, if it were adopted, would, it was argued cause the utter destruction of our export trade in leather, harness, boots, shoes and kindred commodities. Hides are a by-product. Cattle are raised for the beef and not for the hide. The value of the hide is only a small proportion of the value of the animal. Goat skins are imported from foreign countries and none are raised here. Placing a duty on hides will not be beneficial to the farmer, either immediately or prospectively, but will most seriously cripple a prosperous industry employing nearly 100,000 people, and destroy a constantly growing export trade, which has been built up and developed during the twenty-five years since hides were placed on the free list. In 1871 the total export of leather, etc., was less than $2,000,000, and for 1896 over $20,000,000".

The resolutions finally adopted, stated that should a duty be placed on hides the growing export trade in leather goods would be killed and no one benefited, and that the meeting most earnestly protested against such a duty being imposed. A committee of seven was named to proceed to Washington, and oppose the proposed duty.

A telegram from Boston—the centre of the great boot and shoe manufacturing industry—from G.C. Houghton, Secretary of the New England Shoe and Leather Association, stated that he had received telegrams from Chicago, Baltimore, St Paul, Dubuque, Des Moines, Wilmington, and other important manufacturing centres, throughout the country, stating that a protest against the duty on hides was being generally signed, and that delegates would be sent to meet in Washington on the following Wednesday.

In fact, the proposed duty on leather seems to have stirred up the whole country, and meetings have been held in many of the cities, beside New York, to protest against its enactment. The New England Congressmen, including Speaker Reed and Chairman Dingley, are almost a unit against it, and are supported by many of the strongest members from other parts of the country, and the prospects of the proposed duty being defeated would seem to be good.

ROSARIO.

(From our own Correspondent.

May. 21st.

Blue ruin is staring us in the face, and no mistake. Never in the worst times of crisis, has Rosario been in such a bad way commercially as at the present moment, and the look out as to prospects is, indeed, a very dismal one. Many of our good houses of years and years standing are shaky, and unlooked for results are to be expected at any moment. Suspension of payments seems to be the order of the day, and between this and shutting up shop, there is but one step.

In times when the crisis proper was at its culminating point, Rosario managed to tide it over, showing thereby that as a commercial centre we had "vida propia", but now, a series of unlooked for events and circumstances have joined together to put such a severe test to our vitality that I am afraid the strain will be greater

hen what we can bear. A good harvest this year will be the only thing that will save the province, and that only to a certain extent, as the past losses are already telling heavily all round.

* * *

The energetic action and untiring efforts of our Central Committee for distribution of seed seem to have made a favourable impression at headquarters, and that the extra necessary and much wanted funds will be forthcoming. We see by the note which was addressed to the Minister, that this province, which stood in most need of the help accorded, has only received the paltry sum of one hundred thousand dollars, which represents only about the eighth part of what is really needed.

The Central Commission, composed of men of recognized competence and intgerity, has done its best to attend properly the trust imposed, naming sub-Commissions in the districts of its radius of action, which have one and all complied with their duties in the most honourable and impartial manner,

Now, if Government, instead of doing things by halves (we may say by eights in this case)—does it fully in view of our real necessities, and if things look brighter this year, we may confidently expect that with our new change of Government, a new and prosperous era will be open for this province.

* * *

Our future Governor, Dr. Galvez, again passed on a semi-electioneering tour to some parts of the province, being everywhere received with the greatest enthusiasm. Of course, if you read the accounts in the opposition papers you will think it all the contrary, but such is the way with us, and we are accustomed to this sort of thing, and demoralized to the extent that in things political, the majority of our native press have taught us to believe about one third of what it says one way or the other. On his arrival from your city Dr. Galvez was met at the station by a more numerous and "selecter" crowd than what I have ever seen attend our actual governor, who, by the by, and as I hear, has given up all hopes of leaving us a successor of his own selection. All's well that ends well. We shall have no bloodshed, and a governor who, in the minds of the enlightened majority of the province, will fulfill its expectations tending towards its progress and development.

* * *

A splendid "soirée" and concert was given at our Methodist Church on the evening of the 14th inst. Every part of the musical programme was well executed, and the evening throughout proved an unqualified success.

As a special favor the talented professor Señor Romano, accompanied on the piano Miss Newell's "solos" on the violin, a compliment which was highly appreciated.

The Misses Angel, McGurk, Newell, Olliver, and Messrs. Spooner, Jerrero, Angel, Crease, and the scholars of Mr. Newell, deserve great praise for their various performances.

* * *

We had a stiff storm night before last, and lived in hopes of a change in the sticky, murkey weather we have been having—but no! cool, exhilarating "pamperos" are a thing of the past, and North damp winds reign instead.

THE UNITED STATES AND CUBA.

As was to be expected, the bringing forward of the Cuban question by President McKinley was taken advantage of by Senator Morgan to call up one of his Cuban resolutions, that has been on the Senate calendar for some time. The particular resolution brought forward this time provides for the recognizing of the revolutionists as belligerents, and after being under discussion at various times during nearly two months, it was on Thursday approved by a vote of 41 against 14, some 35 Senators being absent or not voting, and the result of the ballot was received with great applause by a crowded gallery.

On the same day the House passed the appropriation of $50,000 requested by the President, for the relief of the distressed American citizens in Cuba.

What the outcome of the action of the Senate in passing the Morgan resolution will be, it as yet hard to foresee. It has yet to be considered by the House of Representatives, and if it passes that body, must be acted on by the President before it becomes effective.

Word also comes from Havana that the United States special commissioner who is investigating the cause of the death of Dr. Ruiz, an American citizen, who is believed to have been murdered in prison, does not find it plain sailing. The Spanish authorities are apparently trying to delay the investigation, and the person whom it is said furnished Consul-General Fitz-Hugh Lee with the details of the supposed murder, is believed to be at present an inmate of the same prison.

That the Spanish Government and people will resent the action of the Senate is to be expected. It is stated already in official circles in Washington that Spain has notified the American Government that no interference of any kind in Cuban affairs will be tolerated.

Here we have the conditions necessary for the ready development of very strained relations between the United States and Spain. For, with the American Congress acting in a manner that the latter Government considers most unfriendly—for, however pleasant a face he may assume publicly, no one will believe that the Prime Minister really thinks that the recent action of the Senate was simply meant to embarrass President McKinley—it would be easy for Spain to retaliate by placing obstacles in the way of the U. S. special commissioner in Cuba or by imposing onerous regulations on those having charge of the distributing of the supplies sent for the relief of American citizens in that island, or in many other ways, while public opinion—which does not as a usual thing weigh greatly with the Government at Madrid—is so strongly against anything that seems like interferance by the American Government, that it may be forced to act differently than it otherwise would, and we see that the opposition has already forced the Foreign Minister to send in his resignation.

According to General Hawley, Chairman of the Senate Committee on Military affairs, the United Sates is not prepared for war and must keep the treatment of the Cuban question within the bounds of diplomacy, and this may exert a sobering influence on the American Congress. Stil we shall watch for further developments with great interest, as it appears that a crisis is approaching that may rupture the friendly relations existing between the United States and Spain.

"LA EQUITATIVA DEL PLATA."

To the Editor of the STANDARD.

Dear Sir :—

The "Review of the River Plate" in its issue of Saturday the 15th inst, in writing about the circular from the Representative of the Equitable Life Insurance Society, wherein reference is made to the National Life Insurance Society "La Equitativa del Plata" that has recently begun operations here, insinuates that the latter has adopted the name of "La Equitativa" with the object of deceiving the public as to the relationship between the two companies. The article above referred to also insinuates that business has already been obtained through false representations.

The name "La Equitativa" is not a trade mark, and consequently can be used by any company. Further, La Equitativa del Plata distinctly states in its prospectus that it has no connection whatever with the United States company of a similar name, which has ceased doing business in the River Plate.

Parties insuruing their lives, generally study the prospectus of the company before doing so, and it is therefore clear that they cannot be deceived in any way.

Furthermore, the gentlemen who form the Directorate of "La Equitativa del Plata have a reputation above suspicion and no insidious allusion will affect them. Thanking you for inserting the foregoing.

I am

Yours truly.

RAILWAY ITEMS

Mr Henry L. White, Manager of the Paraguay Central Railway, has arrived from Asuncion, en route for Europe. Mr. White goes home by the R.M.S. Thames on business of his railway, having been summoned by the Board of Directors in London, with a view ot settling certain difficulties between the shareholders and debenture-holders of the railway. Once these difficulties removed, Mr White will return, and expects to be back in Asuncion in August. He has favored us with a copy of the Report on the working of the Paraguayan Central Railway for the year ended April 30th 1896. From this Report we take the following interesting facts and figures:—

The number of miles open for traffic remains the same, viz: 155—

TRAFFIC.

	1894-95	1895-96
Passengers carried from May 1st to April 30th...	424,994	514,390
Goods and Parcels, tons..	50,996	65,739

RECEIPTS.

	1894-95 $ c.	1895-96 $ c.
Passsengers.....	312,100 42	343,360 71
Goods.....	369,019 91	431,515 76
Parcels.....	43,009 32	44,179 11
Miscelaneous.....	12,790 74	15,282 77
The Gross Receipts amounting to...	736,920 39	834,338.55

The Gross Traffic are thus apportioned.

		1894-95 $ c.	1895-96 $ c.
1st Section, from: Asuncion to Paraguari	45 miles.	507,738 69	583,720 77
2nd Section, from: Paraguari to Villa Rica	48 "	167,085 22	185,111 93
3rd Section, from: Villa Rica to Pirapó	62 "	62,101 48	65,505 65
	155 "	$736,920 39	$834,338 35

The improvement in the receipts from the Goods and Parcels traffic is very noticeable. During the year under review 65,739 tons, producing $475,694 were carried, compared with 50,996 tons, producing £412,025 in the year ended 30th April, 1895. The principal movement was in the carriage of Timber, of which 24,100 tons were carried, or 9,323 tons more than in the preceding twelve months. There was an increase generally in all other classes of goods except oranges and tobacco, in which there was a slight decrease.

EXPENSES.

The Working Expenses were $792,621, an excess of $62,286. To account for this there is an increase of $36,000 for repairs and renewals, $17,000 for heavy repairs to Engines, and the refitting of two which have been out of use for a considerable period, but will now be of valuable service for some years to come. $19,000 increase is due to larger Carriage and Wagon mileage, and to the necessary staff. More telegraph clerks, and the replacing of about 80 per cent. of telegraph posts has caused an excess of $6,537.

The Directors have much pleasure in stating that after long and arduous negotiations between the Company and the Paraguayan Government, and after repeated and anxious endeavours to promote a settlement of the matters relating to the Guarantee question, a Project of Law was submitted to. and received the approval both of the Senate and the Chamber of Deputies. The principal Clauses are:—

The relinquishment by the Company of all claim to Guarantee in arrear and falling due in the future.

The surrender by the Government of the £210,000 Preference Shares held by them, for cancellation.

The Company to have full control of the Line, the intervention of the Government in the future being limited to measures of safety and police regulation.

The Company within six months of the signing of the Agreement to extend the present line to the River Pirapó, a distance of about 4 kilometres, to place there a floating bridge, and to complete the telegraph line to Encarnacion.

The Company to construct within two years a short branch from the main line near Asuncion to the River Paraguay, and build there a mole, which latter is to become the property of the Government in ten year's time.

In the course of negotiations it was found necessary to waive several stipulations which the Board had hoped to include in the arrangement and make it more acceptable to the Company; nevertheless so many material advantages are inherent in it, that the Board feel, under the circumstances, the only safe course for the Shareholders and Debenture Stockholders is to accept the proposal as it stands, so that when free to work the Railway on a commercial basis, the Directors will be able to concentrate their efforts on the promotion and development of the traffic.

The report was approved by a large majority.

SPORT.

NOTES AND ANTICIPATIONS

The card to-day makes a very brave show, as even the classic, from its being a handicap, is far from a foregone conclusion, as is generally the case when weight-for-age is the basis. Malakoff has to hump 64 kilos, which is a steadier, even for a weight-carrier; and we may set him aside, falling back on Alcaide, who with 56 kilos should take a deal of beating. In the first event it seems to be about a toss up between Flecha and Domora. The colts and fillies are showing such in and out running that it is hard to say what will win the second; Abrojo if he can get away should do the trick or if not Fanciulla. In the 1200 metres the Stud Paris have a strong hand with Ney and Oriel, whilst Yeruá should manage the long distance. Pillito will win the Cero stakes, and the Prisionero stable the 1800 metres, which makes our selections read:

Indecis	stakes	—Domora.
Boqueron	"	—Abrojo.
Porteño	"	—Alcaide.
Asteroide	"	—Stud Paris.
Sta Lucia	"	—Yeruá.
Cero	"	—Pillito.
Stone Cross	"	—Prisionero.

THEATRES AND AMUSEMENTS.

IL FIGLIUOL PRODIGO

Ponchielli's work is founded on the well known Biblical fable of the Return of the Prodigal Son, and was first sung at the Scala in Milan in 1884, was directly by Ponchielli. The first act takes places in the vale of Jessen. The second in Ninive. The 3rd act represents the vestry of the Temple at Ninive, while the 4th act represents the valley of Jessen again. The author of "Gioconda" has, in "Il Figliuol Prodigo", introduced an intensely religious strain in the music admirably suited to the play, which at times is not at all unlike "Gioconda." The gem of the whole opera is the tenor's "romanza" in the last act. The piece contains some very fine part-singging all through. The ballets are most splendid.

The opera has almost been written for Tamagno, who sang the part of Azaelo for 110 successive nights, after which the opera was seldom repeated, and latterly was almost forgotten. Taking into consideration that the cost of outfitting such an opera is about 60,000 francs, it speaks highly for our friend Ferrari that he has offered it to the public, though last night the public remained cool as a cucumber, perhaps owing to the frosty night. Notwithstanding, it is worth while to spend an evening, to admire the "tout mise en scéne." Sra. Bonaplata was grand, as was also Sra. Guerrini, and last, not least, Maestro Mascheroni.

At the San Martin last night, the Serpentine Dance on horseback by Miss Taylor was the principal feature, and was received with great applause. Like all things done by Miss Taylor, it was full of graceful movements and was, in all respects, fully equal to the same dance given by the most renowned professors. Miss Taylor was called for again and again, and received floral offerings from her admirers.

Frank Brown has not forgotten Her Majesty's Birthday, and on Monday there will be a very special performance dedicated to the British Community.

To celebrate the patriotic festival, the 25th inst., grand proparations are being made. The title of the piece is "Un Sueño de Realidad," and it will be divided into three sections, the first of which will consist of a reunion of notable persons, with a banquet and speeches, followed by the formation of a committee. The second scene will represent the fourteen provinces of the Republic, various European powers, and military evalutions, and the final scene will be a grand representation, in which more than 200 children will take part. No expense has been spared to make this one of the grandest sights of the season, as far as the "mise en scene" is concerned, the whole market has been placed in the hands of the "Ciudad de Londres," which is sufficient guarantee that it will be carried out successfully.

EDITOR'S TABLE.

The tremendous "slump" (as they say in Capel Court) in the thermometer yesterday started top-coats and "tapados", blue noses, red ears, icy feet and chattering teeth in all circles yesterday, and we wonder that the La Plata Wiggins forgot to tell us that such a rasper was coming. It has snowed in places where even the oldest inhabitants never saw snow before, and it wouldn't surprise us a bit if we had a rattling fall here to-day or to-morrow.

There are lots of things in the out-door racket line on the card to-day besides the usual Dominical hash of racing and football; the Tiro Federal, the Greek procession, the promenade concert of aristocratic Franciscan Sisters in Prince George's Hall, the Patron Saint flare-up in the "loveliest Village of the Plain" and sundry other diversions too numerous to mention. We hope the weather may not stop or spoil the whole lot, but we are sadly afraid of it.

The news about the White Rose revolution in B.O. last night completely upsets all our preconceived ideas. Some one has been lying most abominably. The revolutionary committee's version of what occurred is that after three days' bloody work, Villar was routed with immense loss, though that on the side of the rebels was hardly less severe. The latest rumour is that Lamas has inflieted a fresh and crushing defeat on the column, 600 strong, marching to the aid of Villar. Our friend Stand-by-O'Gorman favoured us last night with a voluminous telegram—an official bulletin—but it arrived too late for publication. Borda in his bulletin admits to a serious reverse at Cuñapirú, which is the defeat of the reinforcements boasted of by the rebels.

There was nothing very fresh about the Greco-Turkish truce yesterday. The Powers have agreed on the terms ot psace—£4.750,000 war indemnity, a slight rectification of frontiers, and no abolition of the privileges of Greeks living in Turkey. It remains to be seen if the victorious Sultan will accept these terms. In any case, King George and his family are done for, and there must be either a new King, chosen by the Powers, or a republic. We wonder if Emperor William had this in his eye when urging Turkey to declare war. There are lots of Hohenzolleren Princes ready to don a crown at a moment's notice.

It has at last been proved that the mysterious box sent to President Borda does really contain explosive materials, and the experts are now taking it to pieces gingerly. Borda might have been blown over the moon, if he had touched the box.

Our esteemed colleague *M.V.T.* "loquitur":—"On Wednesday evening and yesterday morning the town was simply invaded by stalwart New Zealanders, easily recognisable by their travelling caps, tweed tourist suits and evident air of strangers. They were regarded by the natives with no little curiosity, and their attempts to make purchases in the shops without knowing a word of the language afforded considerable amusement. They were the passengers by the "Ruahine," which is taking a contingent of 50 New Zealand volunteers to represent the colony at the Jubilee fetes. Lt. Colonel Pitt, Chief of the contingent, and Mr. W. Berry, Editor of the *New Zealand Herald* of Auckland, paid us the compliment of a call."

Little yellow dogs are to be more the fashion than ever this winter. President Borda has one, our Stand-by-O. G. is talking his Miss Titine O. G., who belongs to our staff, to Europe, empresario Ciacchi acquired one yesterday to guard the Politeama, *La Nacion* of Montevideo has just received one, but none of them comes up to Frank Brown's l. y. d., a Skyeterrier named Jim, who turns somersaults innumerable, to the delight of all the children in town.

We offer our congratulations and best wishes for their married happiness to Mr. Harold Clutterbuck and Miss Mercy Turner, whose wedding will take place in St John's Church on Thursday next, at 8,30 p.m.

The La Plata Chambers are long behind the Constitutional time for commencing their yearly session, but it is said that the members will make superhuman efforts to meet on the 28th inst. We'll bet a white or black stove pipe hat to a dozen "bowlers" that they don't.

Referring to our remarks respecting the Tiro Federal Tournament not having even one British representative, we are glad to find the name of Mr. Charles Dawney, Junr, who has already won so many Gold Medals and Prizes of considerable value for his excellent shooting both with rifle and revolver in the various Tournaments at Rosario, Villa Devoto and Buenos Ayres—in the Tiro Suizo, Tiro Societa Italiano de Tiro a Segno and Tiro Federal Argentino, of which he holds some 50 Gold and Silver Medals, Prizes, etc. We have also such men as Payton, Scroggie and Schultz and others, all good shots, and we hope to see some of these sustaining the name of Britons for good shooting.

Affairs in Spain would seem to be warming up. The Duke of Tetuan, the Foreign Minister, was so bullied, badgered and grossly insulted in the Senate on Friday during a heated discussion of the action of the U. States Senate on the Cuban question that he slapped the face of Senator Comas, his principal opponent, in the corridor on leaving the Chamber. The honourable Deputy at once sent his seconds to the Duke, with a challenge to a duel but a so called Court of Honour formed of the seconds of both parties, decided quickly that there was no cause for a duel, as each had been equally insulted. So best. The Premier, Sr. Canovas del Castillo, appears to be in a happy frame of mind over the action of the U. States Senate in voting to recognize the Cubans as belligerents. Wonderful to relate, he has discovered that it is not aimed at Spain at all, but at President McKinley, who has so he says, offended the Senate. This may be so, but we are afraid that, this time, Sr. Canovas will find that Honourable Senators are not the only persons connected with Samuel's Government that have got tired of waiting for the Cuban revolution to be brought to a close 'mañana,' or the day after, or next week, or next month, 'sin falta.'

Everybody is complaining of the sudden and great increase in the number of forged shinplasters now in circulation. The ladies and the poor are the principal victims. The worst of it is that the police are unable to find the principal criminals. Forgery, like murder, is never adequately punished by our mealy-mouth Judges, and hence it is that both crimes have become permanent blots on the country.

Colonel Trueman has only just come in time to pick up the horses required for our cavalry at the Cape. There is another Richmond in the field now, the Italian Government, which has just received a batch of "criollos" on trial.

A singular industry is said to be carried on in a French village, dept. Loire, and also in a village near Philadelphia, U.S.A. This is the breeding and selling of spiders for the purpose of spinning webs round wine bottles. When a wine bottle is found to be cobwebbed as well as dusty, it is taken as infallible evidence of age, and the wine commands a readier sale and a higher price. Wine merchants who have not the patience (or honesty) to wait till mark of antiquity is produced naturally, purchase a quantity of Epeira vulgaris or Nephila plumipes and set them loose among their newly laid down stocks of wine. The result is the speedy production of a good age warranty. The dust can be easily supplied.

We very sincerely regret to hear of the death of Miss Euphemia Speed, the sister of the late Professor Ryan's first wife, and who filled the place of a mother to her sister's children so well and for so long, that they will feel the loss most keenly. The funeral takes place to-day from Calle Cachimayo, N. 8, at 2 p.m. There will be carriages waiting at Mr. Deck's the undertaker, Calle Lavalle 547, up to 1 p.m.

Now, tender-hearted ladies, please turn to our advertizement columns, and read the notice from the St John's Ambulance Association (Ladies' Branch) and prepare to join the classes.

Step into our Museum, readers and subscribers, and have a look at the finest photograph we have yet seen of that famous phenomenon, the Rocking Stone of Tandil. We are indebted to Mr. Hero Hicken for it, and beg to thank him.

Our valued colleague *Sport and Pastime*, gives the following forecast of the cast of Pinafore:—

Sir Joseph Porter, K.C.B., Mr. J. S. Lee.
Captain Corcoran, Mr. F. Magrane.
Ralph Backstraw, Mr. E. Lesslie Wilson.
Dick Deadeye, M. F. C. Lee.
Boatswain, Mr. J. J. Ruggeroni.
Boatswain's Mate, Mr. F. Chaussard.
Josephine, Mrs. Russell Gregg.
Hebe, Miss E. Foster.
Little Buttercup, Mrs. de Franc.

This may be subject to some changes, but not in the principal parts, and the time is too limited to admit of any delay in the final selection. Mr. C. McKean, the energetic and ubiquitous business manager, has everything well in hand now.

The weather in the Andes is terrible. Nothing but snow storms. The passengers for Argentina who left Juncal on Friday could only get as far as La Calavera, and had to return. A late telegram from Rio Blanca yesterday says that Mr. Hurtado, of the Villalonga Express Agency, and two other passengers crossed on Friday on foot Cuevas to Portillo, and met the passengers for Argentina. Some of the mules were lost, sinking up to their ears in the snow, yesterday there was another terrific storm in the Cordillera.

Another potatoe was very nearly thrown into the Eastern Question pot on Friday by those ferocious troopers the Bashi-Basouks, who took pot-shots at Admiral Harris and his French brother in arms while they were taking a "constitutional" on shore. The British cruiser Cambrian was at once ordered to give them a stiff dose of shot and shell.

The Sociedad Cientifica Argentina is now engaged in getting up a scientific Congress of Latin-America, to be held here in April, next year.

"That's a nice-looking dog," remarked the kindly old gentleman, who takes an interest in everything. "Yes, sir; he looks all right," replied the seedy individual who was leading him with a piece of rope. "He looks like a pointer." Yes, sir; that's what he looks like. But that ain't what he is. He's a disappointer."

For the first time on record snow has fallen at Vedia on the Pacific Railway. When the rustic denizens of the spot got out of bed on Friday morning and found the camp as white as a sheet, they turned the same colour themselves with astonishment, and then took to snowballing with childish delight.

We feel the greatest pleasure in welcoming to these shores Señor Furquin Werneck, the Lord Mayor of Rio de Janeiro, who has come here to take part in the Tiro Federal Tournament, as he is a crack shot and has won innumerable prizes in his own country, will certainly take home with him several of those offered by the T. F. If to-day be fine, there will be a big crowd to see a Lord Mayor competing in such sport. We believe our own genial Lord Mayor, Dr. Alcobendas, is not much of a shot at anything smaller than a haystack.

In this thoroughly commercial city most men are over a desk all day and are naturally stooped and round-shouldered. The following paragraph may be of use to them—"A professor of gymnastics recommends a number of simple expedients for preserving a healthy chest and an erect carriage. The following are some of the habits and exercises he suggests:—1. Make it a rule to keep the back of the neck close to the back of the collar. 2. Try to squeeze the shoulder blades together many times a day. 3. Stand erect at short intervals during the day—"head up, chin in, chest out, shoulders back." 4. Walk or stand with the hands clasped behind the head and the elbows wide apart. 5. Try to look at the top of your high-cut vest or your necktie. 6. Practise the arm-movements of breast-stroke swimming while standing or walking. 7. Hold the arms behind the back. 8. Carry a cane or umbrella behind the small of the back or behind the neck. 9. Walk with the thumbs in the arm-holes of the vest. 10. When walking, swing the arms and shoulders backward. 11. Stand now and then during the day with all the posterior parts of the body, so far as possible, touching a vertical wall. 12. Look upward as you walk on the sunny side of the street."

FASHIONS AND ACTUALITIES

I find myself attacked and cried down. Will you believe it? I am accused of putting puffs into my chroniques! Instead of finding in me a counsellor, as my dear readers had a right to expect, that I have been considering also other interests besides their's! Notwithstanding this little mistortune my «amour propre» is saved; I have played well my little part as that pretty fellow Charles IX said on the morning after St. Bartholomew's day! Judge for yourselves, my detractors have taken 700 days and as many nights to make the discovery! I must indeed have been clever to have kept them in the dark for so long; or else they must be blinder than the blind beggar on the Pont des Arts in Paris.

I suppose they would say I was guilty of puffing, or making a «bombito» as they say here, were I to announce for example, that the Ciudad de Londres, is preparing for to-morrow, Monday, a special exhibition in which it is marshalling its reserve forces in view of the May fetes; what a mistake they would make! I thought only of giving an interesting item of news for the ladies, who always have need of the great establishment in Calle Peru, and will be delighted to hear that to-morrow they will find there a new assortment of all sorts of dress materials, furs, hats, under linen, not forgetting household wares which might be of great necessity on the eve of the receptions in honour of the fetes.

Again I would be accused of puffing, were I to reply to a correspondent who feared to lose a relation, and who might have asked me to what shop she should go to obtain her mourning in a few hours, and I would be refused the right to answer that when the sorry moment had arrived. She, in my opinion, should go to «La Paz,» Calle Suipacha, near the corner of Piedad, where within 48 hours they can dress her in mourning from head to foot.

So I should not be at liberty, without fearing to be compared to a sandwich woman, to observe to my readers, that when they have need of black dress-materials, it is absolutely necessary to patronize only houses which possess well established reputations, as the one to which I refer; because often when you buy black stuffs in any shop you find sometimes some which have been dyed and turned, and it is very difficult to discover it before you have actually made use of them. For mourning furs also you must make your choice in this house as well as for everything else black. So then! it is prohibited to me. Mesdames, to take you by the hand and to lead you through all the centres of «la mode» giving you the profit of my experience sometimes, but always the fruits of my profound study on the subject, seeking to save you from making a false step. Finally I would not be able to say to the lady whose servants had broken all the China, knowing very well that they will not have to replace it, that the «Bazar á la Ménagere» in Calle Piedad 881 exactly facing the San Miguel church, displays in its windows an assortment of the most beautiful porcelain that is made in Europe. I should not be able to console her for the loss of her pet service by pointing out that the massacre of which she has been the victim is not really so grievous, since it affords her an excuse to choose another in the latest fashion of the day; and if I were to insist just the very least on the richness of the assortment afforded by the shop, and of the loveliness of the articles brought from abroad; if I were to recommend to my readers, the elegant sets of glass which would adorn any side-board, they would also raise a hue and cry after me, pretending that I was a rival of those dreadful advertisements on the wall!!!

After all it is really too good of me to pay so much attention to what they say of me. Who has ever been able to satisfy everyone,—except indeed a gold piece, and that unfortunately I am not. At any rate I can do like many other people, who are deaf to unflattering remarks and who only find their hearing when something complimentary has been said. Puffs or advertisements are only a question of words. The important part to me is that the line I have adopted is to endeavour to please the generality of my readers, and I have before me enough letters asking for information to be convinced that I am sometimes of use.

Parisine.

HINTS TO THE NURSE

1. For ordinary use, the ordinary "Bottle Bovril" is the best; it is ready-seasoned and very handy.

2. For bed-ridden patients, "Invalid Bovril" (procurable only from Chemists), should be used. It is more concentrated and contains no seasoning.

3. Don't forget your own health! In the patient's interest you must be at the top of your condition. When worn out with nursing and loss of sleep, acup of "Bovril" will do much to invigorate you.

4. After a hot bath, "Bovril" is a certain preventive of chill.

5. Never give alcohol without the Doctor's orders; "Bovril" is stimulant and nourishment combined.

6. Never leave the sediment at the bottom of a cup of Bovril; it is a valuable portion of the nourishment. Stir well while taking.

ON 'CHANGE.

Saturday, May 22nd 1897.
Gold Premium

First Ring.....	193.70
Second Ring.....	194.50

The market has evidently got to make its mind up that gold is dear, since with everything pointing imperatively to a rise, the prices are crumbling. Rumours are never wanting to account for these evolutions; to-day the report on 'Change was that the Government was selling gold, presumably obtained on loan and realized to get paper. It is only a rumour, however, and not one that recommends itself for self-assertion at that. Probably the real cause of the decline is the dissipation of the emission cloud that was weighing over the market, as it is needless to say that whether the apprehension was discounted or not, it was at all events very widely entertained. This banished, therefore, may be responsible for the reaction, though we are more prone to stick to our theory that the weakness is due to anæmia. Suppose that the houses are not in a position to wait, firstly because they have difficulties at home to foresee and guard against, secondly because they can renew their credits abroad, and thirdly by reason of the restriction of discounts—the natural inference is that the demand must be very meagre; since, with the railways all working on extensions, and the National Government supplies ahead, there would be no important demand except from business houses, which, for the reasons alleged, hold back. The demand, therefore, is almost nil. and as the supply, however paltry, is always pressing, the consequence is the recurring break which dogs every rally. But it is on the other hand impossible to suppose that such conditions can be enduring. They obtain for the moment, violating logical conclusions, but sooner or later this has to be paid for, and alike whether things improve or drift back. It is not a wholesome outlook, but unfortunately it has no other side; there is no getting round it. Congress only made the difficulty greater by insisting on its senseless Full Pay Programme, against everyone's advice, and the country has to dree its weird.

Gold business was fairly brisk at the first hour, though the total of sales for a Saturday, with a wealth of holidays coming on, was nothing very massive. The cash price opened at 295 and began slumping right from the start, until 293¾ was reached when there has a slight rally which left the rate at 293.70 sellers. For end of June there was more doing than usual at about 1 to 1¼ point pass. Stocks were rather more freely dealt in too. A lot of new Municipal Bonds was marked up at 79, which is characterized as a gato, as there are said to be buyers at 81, which seems strange, though possibly true. Nothing was done in National Cedulas, and Provincial issues were equally neglected. A batch of Banco del Comercio shares changed hands at 86. Some Pobladores railway shares were done at 20 after a long absence from the board, and La Plata markets at 2.50, Old Gas are firm again at 198¾.

The following is a summary of the business effected at the first ring to-day:—

$ 495,000 cash at 295-294.80-295-294.80-70-80-70-60-50-294-194.30-20-294-294 20-294-293 80-50-293-70.
$ 365,000 May 31st at 295-294.80-70-294-60-50-295-294.60-50-294-293-80-294-293.56-70-293.50.
$ 25,000 June 15th at 295-294.50-294.

A very important lawsuit in which the best right to a fine block of 10 square leagues down by Vecino and Dolores in the Province of B. Aires was the source of dispute, has been brought to a close. It seems that Dr. Marcelino Aravena and Mr. Adolfo Aleman sold or handed over the place to Mr. Francisco Monn, with a Cedula Mortgage thereon for a trifle over 2 millions of dollars, but subject to conditions, at least so they allege. As no conditions are set forth in deed of sale, and possession was duly rendered and taken, the Court holds the purchaser to be lawful owner. There are evidently mortgages and mortgages.

The ordinary general meeting of the City of Buenos Ayres Tramways Company was held on April 14th at Winchester House. Mr. Benjamin Isaac presided. In the year 1896 the company carried 1,800,000 more passengers than in 1895, and the latter year showed a greater excess over 1894. The total number of passengers carried in 1896 was nearly 30,500,000, which for a population of 700,000 appeared to be almost extraordin-

ary, considering that the company did not possess anything like half the lines of the city. At the average gold premium of 1896 the fare was just over 1¼d., for which sum the passengers were carried over five miles of the line. They were able to pay a total dividend of 7s. 1d., against 6s. 3d. for 1895. The increase was mainly due to the fall in the premium, and, calculating the receipts and expenses of 1895 and 1896 in Argentine currency, there was no difference in the profits of the two years. Their receipts on paper were 6 per cent more than in 1895, but the expenses rose 9 per cent, notwithstanding the exceptional cheapness of fodder. The low price of fodder had been of great advantage to them. The rate of wages had advanced some 6 or 7 per cent, which, of course, affected them adversely. But that was of little importance compared with the continuance of their excessive taxation and the very onerous expenditure with which they were saddled; under the heading of expenses incurred owing to city improvements, the cost of relaying rails in various streets was over £2,050, and the loss of traffic in consequence of being turned out of the streets for several months was a very serious matter. The taxation for the year, including paving taxes, amounted to 15·88 per cent of the gross receipts, or over 35 per cent of the net profit. The cost of paving taxes had been debited to capital. Up to the end of 1896 the company had paid for paving taxes upwards of £42,000. The traffic during the current year had been well maintained. From the available balance of £29,866 the directors recommended that a dividend, free of income tax, of 3s. 9d. per share be paid upon the fully paid up shares, and of 1s. 6d. per share upon the shares of the eighth issue, which would together absorb the sum of £22,275, and that the sum of £5,000 be placed to the reserve fund. That would leave the sum of £2,591 to be carried forward to this year's account. The report was adopted and the dividends approved.

The report of the London and Brazilian Bank for the year ended January 30 last shows an available balance of 269,-339*l.* (including 146,941*l.* brought forward from last year.) An interim dividend of 10s. per share, amounting to 37,500*l.*, was paid in October last. The directors now recommend a further payment of 10s. per share, being a dividend at the rate of 10 per cent. per annum, free of income tax. The directors also recommend the payment of a bonus of 8s. per share, thus making a total distribution of 14 per cent. per annum, free of income tax, on the paid-up capital of the bank. These payments will absorb 105,000*l.*, leaving a balance of 164,329*l.* to credit of profit and loss new account. The depreciation on the capital employed in Brazil, which amounts at the present rate of exchange, as stated in the auditor's report, to 139,-603*l.*, is fully covered by the balance carried forward, viz., 164,339*l.*

The report of the directors of the North-West Argentine Railway for the past year states that the gross receipts for the year were £100,494, against £82,117 in 1895, and the working expenses $49,123, against £46,986, leaving net profits £51,-371, against £35,131. The large increase in gross receipts is, to a great extent, attributable to the fall in the gold premium, for if the figures of the two years are compared, using one common rate of gold premium for both (viz, the average of 1895), it will be found that the gross receipts of 1896 were greater than those of 1895 by only £3,741, which amount properly represents the expansion of traffic. Dealing with the working expenses in the same way, it will be found that those of 1896 are less than those of 1895 by £1,959. The working expenses of 1896 amount to 48·88 per cent. of the gross receipts, which compares very favourably with the percentage of 1895, viz., 57·22. It is satisfactory to note the increase in almost all descriptions of goods. The decrease of 4,570 tons in sugar cane does not represent any decrease in money value, as the average distance carried has been greater than in 1895. The gross receipts telegraphed for the first fourteen weeks of the current year show an increase over the same period of last year of £2,738, or 15·43 per cent., which leads us to hope that development is still progressing.

Messrs J. J. Erausquin and Co., report a falling off of 6000 head of cattle in the arrivals at the Corrales for the period ending the 15th of the current month; prices show no improvement, while offers are far more numerous than sales. The total number of head of cattle slaughtered during the fortnight amounted to 23,064.

Exchange is quite paralysed, as though rates are striving upwards, it is more through lack of takers than anything else, there being no superabundance of bills. The fact of the matter is that the banks are the only takers of any importance, and of course until the rates reach the point at which they (the banks) will operate, the quotation will be always firm. Even supposing that this does occur, however, and the banks step in they will sweep the market clear in a day, and send quotations slumping again, from which we must conclude that the exchange market is as limp and anemic as gold, no backbone. However, the market is, as we have stated, firmer and with a rising tendency. We quote:

London—47 9/16d- ⅝d.
Paris—4.97½ -98 fcs.
Antwerp—4.99¾ fcs.
Hamburg—4.06¼ marks.

There is no change in discounts.

The Rio rate is cabled steady at 7 11/16d

With regard to the Distress Commissioners and their appeal to National benevolence, the outcome of it is a Bill to Congress for one million dollars to be raised on the strength of the National Government's credit, and repaid by the farmers with proceeds of the harvest. The Governor of Entre Rios, emboldened by the success of the Santa Fecinos, also wants a grant for his province, which will not be denied, and we suppose Cordoba will also get a slice of the cake, all which will certainly expand the amount to much nearer two millions than one. However, it is always money well spent, so long as it does not pave the way for bounties and ultra Protection.

The business of the second hour was marked by a rather brusque reaction, totally unexpected by the bears, who expected to close the week with the quotation nearer 290 than 295. But it was not to be, and although the business done was such a mere bagatelle, as scarcely to form a criterion for shaping calculations, the rally is none the less solid and likely to take border form on Monday. The rate opened at 295.50 and closed firm at 294½, whilst after the hour there were no sellers under 294.80. The transactions in stocks were quite as insignificant. Santa Fe Consols were done at 38.50 to 39, and Catalinas at about 7. Old Gas shares shewed a drop of 2 points, to 196¾.

The following is a summary of the business effected in stocks and shares at the second ring:—

Entre Rios is not only a petitioner for help for its farmers, but also is desirous of the National Government shouldering the burthen of its foreign debt service. In the most playfully innocent, engaging way in the world the Province announces that the creditors have agreed to fix the debt at 14¼ millions gold, instead of $21,-920,219 really due to them for capital and arrears of interest, and that the creditors are equally kindly disposed to receive the 4½ % on the 7 millions of gold bonds which the Government holds for account of the province in guarantee of its issue. In this way the creditors would receive $315,000 gold, but as the 14¼ millions of National gold 4% bonds would require $570,000 gold per annum, the Province suggests that the National Government, make good the balance, promising to forego the arrears of 720,000 interest due on the 4½ per cents and to make over to the National exchequer 20% of its land tax. The arrangement is very pretty, but it will not work, just at present, for the very simple and sufficient reason that the National Government has quite enough frying to do with its own fish for the moment. We suppose some time or another, financial principles and economy to the contrary notwithstanding, the Nation will take over all these Provincial relics of discredit and improvidence, but if Santa Fé and B. Aires have not been able to force their arrangements through, Entre Rios might as well give up trying.

Government has named Don Julio Puyrredon, President of the Sociedad Rural, Commissioner to the United States, England, France, and Germany, to study the agricultural and pastoral industries of those countries, and specially report to Government on the means they employ to prevent the importation of infectious diseases in their flocks and herds.

Norwegian bq Imer, 1,200 tons burden to load next month in B.A. horses for Wallfish Bay (South Coast of Africa) for the total sum of £650.
Parcels for steamers—
400 bales of wool, B.A., for Dunkerque at 8 fcs.
800 tons of bran, Rosario for Bremen and Hamburg at 18 marks.
500 bales of wool, B. A. for Bremen at 8 marks.
500 tons of maize, up river for London at 8s.
500 salted hides, B. A. for Genoa at 30 francs.
The freight market closes this week very dull, there was not even an average briskness in the charters of decks of steamers for cattle. Markets up river, however, show a change, and there was more briskness in the chartering of vessels to load grain.
The British military commission which has come out here to purchase horses in the Argentine, has chartered one or two steamers in London through Messrs. Houlder Bros, to take the horses they purchase over to Africa.
Brokers in this market thought that they might get the contract for the chartering of these steamers, but their hopes are now of course dashed to the ground.
